

HAWKSMAWER

KITCHENS

HANDMADE KITCHENS

MADE IN
YORKSHIRE

UNCOMPROMISED QUALITY

Hawksmawer brings a brand-new concept to the kitchen design and purchase process.

Drawing on 45 years' experience of fine furniture making, our innovative approach to kitchen design was born out of David Mawer's and Loz Hawksworth's vision to create a brand of kitchens that could be produced on a commercial level without sacrificing the quality, style and specification of a handmade kitchen.

Our mission is to offer uncompromised quality kitchen cabinets via a seamless online shopping experience. We offer three unique ways for you to create and buy your perfect kitchen – a buy only option, a buy with a plan option and a full design package.

BUY ONLY

You design your ideal kitchen. Simply choose your cabinets, worktop and accessories and buy online. The cabinets will be delivered to your door primed ready to fit and paint.

BUY WITH A PLAN

If you need a little help with the planning of your kitchen, for a fee our design team will provide you with a plan and a pre-filled shopping basket on the website, ready for you to buy. All we need from you are the dimensions.

FULL DESIGN PACKAGE

For a fee, our design team will work with you to create a kitchen that helps you make the most of your space. Included in the full design package is a site visit, kitchen plans and concept visuals bringing our ideas to life before your kitchen is even made.

All Hawksmawer kitchens are handmade by our skilled craftsmen in Yorkshire using materials selected for their quality - no matter which buying experience you select, your kitchen will never be compromised

Our team is the real secret - combining knowledge, experience and a passion for a great product; enabling us to create kitchens of fine detail, individuality and sophistication. We hope you'll enjoy your new Hawksmawer kitchen as much as we enjoyed making it.
